A True Eco Friendly Timber Casket

Hand crafted by quality tradesmen. Our eco-friendly, *Eco Caskets* are made with water based glues, minimal use of screws and pins and locally sourced timber, grown sustainably here in New Zealand, to reduce the carbon footprint and impact on the environment.

Eco Caskets feature a natural finish, solid pine construction on the lid and sides and a plywood bottom for a sturdy base.

Choose from natural finish, solid pine, wooden handles or natural fibre rope handles.

Eco Solid Pine Casket

Available with wooden or rope handles.

\$2,930

Solid Pine Urn

Willow, fast growing and eco-friendly

This fast growing, sustainable material benefits from regular cropping. Willow absorbs, and locks in carbon dioxide during growth. When buried the CO2 remains locked in. If cremated, only the same quantity is released back into the environment - making it 'Carbon-Neutral.'

Willow Urn

Woollen Casket *(includes complimentary woollen blanket and nameplates)*

Grey, White.

\$2,975

New Zealand Wool Blend

Made from New Zealand Wool Blend- 3 fleeces per casket, biodegradable and environmentally friendly. Woollen caskets are supported on a strong recycled cardboard frame and strongly reinforced with jute. The interior is generously lined with organic cotton and attractively edged with jute. The waterproof base is also biodegradable. All the materials used are readily biodegradable and suitable for cremation and burial.

Included are two personalised embroidered woollen name plates and a woollen blanket.
