The delicate Art of Cloisonné

Cloisonné is a centuries old enamelling technique, which consists of soldering delicate silver wire onto a metal surface. Once a design is created, the resulting cellular spaces, called cloisons (*French: "partitions" or "compartments"*) are filled with enamel paste. Multiple options to suit your needs, available in two designs Etienne Autumn Leaves and Etienne Butterfly.

For every funeral arranged by Lamb & Hayward, a native plant is established at Ōtukaikino - Living Memorial, a place of commemoration for family and friends to visit.

Since 1992, Lamb & Hayward and the Department of Conservation (DOC) have worked in partnership to develop Ōtukaikino-Living Memorial.

Ōtukaikino at 985 Main North Road, Belfast, is a 13 ha DOC Reserve with significant cultural and ecological values and is one of the few remaining original freshwater wetlands.
